What do child psychologists do?

- Assessing and diagnosis of childhood emotional, behavioural and cognitive delays or disorders
- Diagnosing a range of childhood mental health disorder/differences such as anxiety and ADHD
- Assessing learning delays and disorders
- Providing ongoing therapy to help children with mental health disorders or difficulties
- Providing education and training to parents to help their child in a variety of domains including: social-emotional development and wellbeing, mental health disorders or difficulties
- Advocating for the needs of children and families at school and in the community
- Working collaboratively with other professionals such as teachers, speech therapist, occupational therapist, and paediatricians to provide a holistic care for the child
